## **Smoke and Fog Fluids**

Cloudy Professional products are designed to deliver amazing and safe effects for a wide variety of venues, from theaters to TV studios, dance halls, cultural and recreation spaces, concerts, night clubs, mega productions, military training, fire drills and airtightness tests in laboratories, or wind tunnels in automotive factories.

All of our fluids are manufactured with deionized water and USP food grade glycols, as well as rigorous filtration systems that make them safe and reliable.

All of our fluids are not toxic, they are not flammable, they do not cause eye or respiratory irritation, they do not generate greasy residues and they do not cover the heaters of the smoke machines.

Fluid type

# Density

It is formulated to generate a dense fog and stay in suspension for a long time evenly and without atmospheric distortions. It produces a low level of consumption due to its high performance.

Its dissipation is 30% slower than Cloudy Normal. Recommended for outdoor scenarios, large surfaces or places where the duration of the fog in suspension has to last longer.

It is also chosen for military training and firefighting drills.

All liquids in the Cloudy professional line are factory sealed with a security seal and a sealed aluminum lid.

Suitable machines:  
All type of smoke machines.
