## **Smoke and Fog Fluids**

Cloudy Professional products are designed to deliver amazing and safe effects for a wide variety of venues, from theaters to TV studios, dance halls, cultural and recreation spaces, concerts, night clubs, mega productions, military training, fire drills and airtightness tests in laboratories, or wind tunnels in automotive factories.

All of our fluids are manufactured with deionized water and USP food grade glycols, as well as rigorous filtration systems that make them safe and reliable.

All of our fluids are not toxic, they are not flammable, they do not cause eye or respiratory irritation, they do not generate greasy residues and they do not cover the heaters of the smoke machines.

## Fluid type

# Flow

Dispersion Density 

It is a liquid designed for low smoke machines, and specially designed for machines with any ultrasound equipment, refrigeration, ice or dry ice, obtaining a smoke level with the ground.

A smart alternative to dry ice replacement. This liquid produces a dense mattress at ground level of pure white color, which will advance and disappear without rising or generating ambient mist.

All liquids in the Cloudy professional line are factory sealed with a security seal and a sealed aluminum lid.

Suitable machines:

Smoke machines equipped with refrigeration systems, ice, dry ice or ultrasonic technology.
