## **Smoke and Fog Fluids**

Cloudy Professional products are designed to deliver amazing and safe effects for a wide variety of venues, from theaters to TV studios, dance halls, cultural and recreation spaces, concerts, night clubs, mega productions, military training, fire drills and airtightness tests in laboratories, or wind tunnels in automotive factories.

All of our fluids are manufactured with deionized water and USP food grade glycols, as well as rigorous filtration systems that make them safe and reliable.

All of our fluids are not toxic, they are not flammable, they do not cause eye or respiratory irritation, they do not generate greasy residues and they do not cover the heaters of the smoke machines.

## Fluid type

# Normal

Dispersion     Density     

It is our classic liquid for smoke machines.  
It can be used in any standard smoke machine,  
without covering it or leaving residue.

Normal, Cloudy produces a white cloud of  
medium density and slow dispersion, which is best  
for highlighting all types of light beams, without  
modifying the color.

Recommended for stages, theaters, clubs, discos.  
Its fine particles generate a medium/high refractive  
index, being the one chosen by professionals  
for all purposes.

All liquids in the Cloudy professional line  
are factory sealed with a security seal and a  
sealed aluminum lid.

Suitable machines:  
All type of smoke machines.
